

Rivendell's 2017 Stock Grass Seed Mixes

RIVENDELL'S 2017 BLUEGRASS BLEND

Sod quality certified blend of elite KBG varieties. Trial tested and selected for specific performance traits essential for Colorado's mountain environments – drought tolerance, cold hardiness, dark green, wear tolerant, shade performance, disease resistance and more. *Rate: 4-5lbs per 1,000 FT²*

- 20% Hampton Elite KBG
- 20% Noble Elite KBG
- 20% Midnight Elite KBG
- 20% Fullback Elite KBG
- 20% Fielder Elite KBG

MASTERGREEN BLUEGRASS BLEND

An elite blend of Kentucky bluegrass. Excellent for establishing new lawns or reseeding existing lawns. *Seeding Rate: 4-5lbs per 1,000 FT²*

- 25% Fielder Kentucky Bluegrass
- 25% Sombrero Kentucky Bluegrass
- 25% Harmonie Kentucky Bluegrass
- 25% MurcuryKentucky Bluegrass

MASTERGREEN PARK & SPORTS MIX

Ideal for seeding or renovating football, soccer, baseball fields and playgrounds. This mix was developed to provide quick germinating, durable, high quality turf in high traffic areas. *Rate: 4 Lbs. per 1,000 FT²*

- 50% Thrive Perennial Ryegrass
- 50% Merit Kentucky Bluegrass

MASTERGREEN SUN & SHADE CAREFREE MIX

Known for surviving under extreme conditions, fine fescues can be found thriving in infertile, dry soils, deep shade, and where turf is neglected, tortured and forgotten. *Rate: 4-5lbs per 1,000 FT²*

- 30% Quatro Sheep Fescue
- 30% Chantilly Creeping Fescue
- 25% Wrigley 2 Chewings Fescue
- 10% Thrive Perennial Ryegrass
- 5% Merit Kentucky Bluegrass

PHD PROFESSIONAL PERENNIAL RYE MIX

DLF's premium PRG blend for athletic turf and golf courses.

Rate: 5lbs per 1,000 FT²

- 34% Thrive Perennial Ryegrass
- 33% Banfield Perennial Ryegrass
- 33% Gator 3 Perennial Ryegrass

MICROCLOVER® BY DLF-TRIFOLIUM

An exciting innovation bred from white Dutch clover. Tiny, low flowering clover mixes perfectly with bluegrass sod. Greatly reduces weeds while improving color and density- all with less fertilizer, water and mowing!!

Rate: ½lb per 1,000FT²

RIVENDELL'S NATIVE LOW GROW MIX

Attractive species mix with a lower growing habit. Tough, drought tolerant mix preferred by landscape architects and designers. *Rate: ½lb per 1,000FT²*

- 20% Blue Fescue
- 15% Blue Grama
- 15% Rocky Mountain Fescue
- 15% Canby Bluegrass
- 10% Indian Ricegrass
- 10% Sandberg Blue
- 10% Sideoats Grama
- 2½% Alpine Bluegrass
- 2½% Bottlebrush Squirreltail

PITKIN COUNTY MIX *Rate: ½-1lb per 1,000 FT²*

A grass mix as specified for many Pitkin County reclamation projects. Very drought and cold tolerant.

- 25% Slender Wheatgrass
- 20% Mountain Brome
- 20% Western Wheatgrass
- 20% Secar Bluebunch
- 5% Thickspike Wheatgrass
- 5% Idaho Fescue
- 3% Green Needle
- 2% Indian Ricegrass

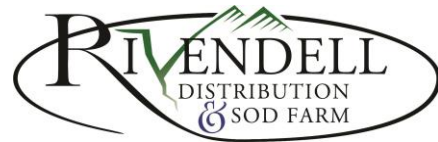

LOW GROW RECLAMATION MIX

Value mix for quick, reliable establishment for reclamation / re-vegetation. *Rate: ½-1lb per 1,000 FT²*

- 30% Crested Wheatgrass, Ephiam
- 25% Sheep Fescue
- 20% Perennial Ryegrass
- 15% Chewings Fescue
- 10% Canada Bluegrass

Rivendell's 2017 Stock Grass Seed Mixes

RIVENDELL'S MOUNTAIN PASTURE MIX

Highly palatable forage grasses selected to adapt across a wide range of mountain environments. **Irrigated or dryland** this mix produces attractive, quality hay.

Seeding Rate: 25-35lbs per acre

- 25% Ambra Orchardgrass (Medium)
- 25% Smooth Brome
- 20% Fojtan Festulolium (s/o of Lofa)
- 15% Fleet Meadow Brome
- 15% Calibra Perennial Ryegrass

FORAGEMAX PASTUREMAX (red bag)

Formulated for mountain production, a grower can use this mix for intensive grazing and high quality forage hay. Ideal for grass finishing or milk production. *Rate: 25lbs per acre*

- 30% Amba Orchardgrass (Medium)
- 25% Fojtan Festulolium (s/o of Lofa)
- 20% Smooth Brome
- 15% Calibra Perennial Ryegrass
- 5% Renegade Red Clover
- 5% Ladino White Clover

HORSEMAX (green bag)

Specially formulated for premium horse pasture. High-yield, low-sugar grasses that perform well under close grazing and high trample management. *Rate: 30lbs per acre*

- 25% Amba Orchardgrass (Medium)
- 20% Smooth Brome
- 15% Fojtan Festulolium (s/o of Lofa)
- 15% Calibra Perennial Ryegrass
- 15% Merit Kentucky Bluegrass
- 10% Timothy

IRRIGATED PASTUREMAX (blue bag)

Formulated for high-yield hay production, this mix will produce high-energy, persistent grass pastures.

Rate: 25-35lbs per acre

- 30% Calibra (4N) Perennial Ryegrass
- 25% Ambassador Orchardgrass
- 20% Mahulena Festulolium
- 15% Amba Orchardgrass
- 10% Smooth Brome

ORGANIC COVER CROP

Excellent as quick establishing cover planted between rows, pre or post-harvest to scavenge and bank nutrients. This "green manure" can be tilled in. *Rate: 4-5lbs / 1,000FT²*

- 40% Organic Forerunner Triticale
- 30% Organic Oats
- 25% Organic Spring Peas
- 5% Organic Common Vetch

Forage Annual Ryegrass – Kodiak

Rapid germination even in cool conditions with high tonnage yield. Excellent interval cover crop, soil stabilizer or transition forage grass. *Rate: 15-25lbs per acre^o*

^o Annual ryegrass is a prolific seeder and care must be taken to prevent seeding-out if regrowth is not desired

Individual Varieties of Grains/Grasses/Legumes

- Alfalfa
- Oats
- Barley
- Grazing Clovers
- Blue Fescue
- Creeping Red Fescue
- Indian Ricegrass
- Timothy
- Birdsfoot Trefoil
- Peas
- Vetches
- Crimson Clover
